

ATHLETICS OMNIBUS – RECORDING ATHLETICS PERFORMANCES

From the Athletics Omnibus of Richard Stander, South Africa

1. INTRODUCTION

It takes years for a Technical Official to obtain and apply the skills to take an objective and impartial decision in athletics. If this decision, once taken, is not recorded properly, it can take years to ratify the problems and confusion created as a result of a decision not recorded correctly.

It is the responsibility of the Technical Official to ensure that the decision taken during an athletics meeting is accurately and correctly recorded, in a standardized format that is understandable to everybody involved in athletics.

Once the results are recorded, it will be used by different people for different reasons during and after the event. If the result of the event was recorded correctly and in a standardized format, it will speed up the process in which the results will be utilized by all the Officials involved in the sport.

The way in which the result of the event is recorded will affect the sport as follows:

- 1.1. The Administrators can to distribute the results faster to all Officials that need the results
- 1.2. The Coaches and Athletes can monitor their progress faster
- 1.3. The Selectors will use the result to select representative teams
- 1.4. The Statisticians will use the result to determine if a record is broken, if it is the best performance of the season, if it is the personal best performance of the athlete, etc.
- 1.5. The Media will use the result to inform the public of the performance
- 1.6. The Marketing Department will use the result to profile an athlete or the event.

2. INFORMATION ON THE RESULT SHEET

To cover the needs of all people that have an interest in the result of an athletics meeting, the following needs to be recorded on the result sheet:

- 2.1. The name of the Meeting. The name of the meetings should specify:
 - 2.1.1. Type of event e.g. Track and Field, Cross Country, Road Running, etc
